

# Security Scan Report

## SQL Injection:

```
url: http://testphp.vulnweb.com/search.php?test=query  
error_based: True  
boolean_based: False  
time_based: False  
union_based: False  
vulnerable: True
```

## Cross-Site Scripting (XSS):

```
reflected: Detected  
stored: Detected  
dom: Not Detected
```

## CSRF:

```
CSRF: === CSRF Vulnerability Scanner ===■Scanning http://testphp.vulnweb.com/search.php?test=query for CSRF vulnerability
```

## Security Headers:

```
status: success  
data: ['Validated URL: http://testphp.vulnweb.com/search.php?test=query', 'Scan completed successfully.']}
```

## SSL/TLS:

```
tls_1_2_supported: False  
tls_1_3_supported: False  
certificate_valid: True  
connection_secure: False
```

## OWASP Summary:

```
Injection: Yes  
Broken Authentication: No  
Sensitive Data Exposure: Yes  
XSS: Yes  
Security Misconfiguration: No
```
